• English (IELTS 8.0)
• Japanese (JLPT N2)
• Hindi
• Bengali
• French (learning)
• German (learning, unofficially A1-A2 level)

EXPERIENCE

WORK EXPERIENCE

GA Technologies   Apr 2020 -
Android App Developer   Tokyo, Japan (Remote)

• Trained in android development in Kotlin by creating practice apps that were reviewed by android and iOS developers with several years of experience in developing production grade apps.
Learnt about MVVM & MVP architectures, state management, lifecycle, RxJava, unit testing, etc.
• Received basic training as a full stack developer in the use of ruby, ruby on rails, css, javascript, docker & shell scripting.
• Communicated about software development challenges in a foreign language, Japanese.
• Learnt about the real estate industry in Japan.

PERSONAL PROJECTS

Rental Easy   🌐 Website

A dummy e-commerce website where users can rent common items such as books and post their own items for lending. Functionality: account creation and sign-up (with social media login), interface for posting items, ordering system, rating and reviewing items. Built with Vue.js, Firebase.

Banshee Vocab   🌐 Website

A competitive online multiplayer quiz platform for language learners. Users can play language quizzes against each other and review incorrectly answered questions. Additional functionality: matchmaking. Built with Vue.js, Firebase.
